**A MESSAGE FROM VIVIANE NAMASTE  
ACTING PRINCIPAL, SIMONE DE BEAUVOIR INSTITUTE**

Well, another academic term is upon us! As usual, we have an exciting range of courses to be offered at the Institute this term. In addition to our core courses and some of our most popular electives, new course offerings for the fall include *Feminist Spoken Word*, and *Gender, Space and the City*. Such innovative course offerings are part of what makes the Institute unique, and we hope they foster engaged dialogue and reflection on issues of importance to feminist activists and scholars.

We are organizing a variety of different events in the coming weeks – everything from our general Orientation party, to a Research Seminar, to workshops for students interested in applying to graduate school. We hope these events fulfill your different needs as students, faculty and Research Associates – from the practical to the social to the intellectual! For more information on these events, watch for posters around the halls of the Institute, and consult the calendar of events on the back page of this newsletter.

Our new hire, Dr. Gada Mahrouse, will begin working with us in January 2008. Please welcome her with the enthusiasm and cheerfulness you demonstrated when I joined the Institute in 2002; it impressed me greatly and made me happy to work here. Gada has also written a brief note introducing herself and her research. Please, join me in welcoming Gada to Institute life!

On a related subject of hiring, this year we will also conduct a search for a new Institute Principal. Watch for more information about this process in the coming months.

It promises to be another busy year filled with reflection, organizing, teaching, learning and scholarship. I look forward to working with you all this year as we continue to make the Institute a dynamic site of feminist inquiry and action.

- Viviane

**Feminist Research at Concordia**

Here at the Simone de Beauvoir Institute, we're in the initial planning stages of a conference dedicating to showcasing *Feminist Research at Concordia*. There's a wealth of innovative and engaging research being done here, and we'd like to create an opportunity for us to learn about the different kinds of feminist research going on at Concordia. If you teach and research at Concordia (whether part time or full time), if you are a graduate student, if you're in the Faculty of Engineering, Fine Arts, Arts and Science or the John Molson School of Business; if you're working on feminist research and you'd be interested in presenting your work, we'd like to hear from you! Tentatively planned for the spring of 2008, the conference will allow us to learn, to meet other feminist researchers, and to communicate our research findings to Concordia and beyond.

We'll be sending out a call for papers soon, so keep your eyes peeled!

**Reminder:**

***Institute Council Meeting***

A reminder that the next Institute Council will be **Friday, October 26, 1 – 4 pm**. All welcome! 😊

# Notes of Interest

Is it better to travel to the Global South on “solidarity tours” rather than simply as tourists? If so, how are socially responsible travellers to negotiate race, gender, and class in relation to the people and places we are visiting? What distinguishes us “witnessing” the struggles of certain communities from merely gazing at them? These are the types of questions presently spinning around my head – questions that I am hoping to explore in-depth with some of you.

Hi everyone, my name is Gada Mahrouse. In January 2008, I join the Simone de Beauvoir Institute as a new member of the Faculty. The areas of specialization for this position are feminist perspectives on race and racism and post-colonial issues. These issues are at the heart of my interests. My doctoral research focussed on solidarity activists who travel to act as accompaniers, witnesses, or human shields. It offered insights into the ways transnational activism is embedded in imperialist relationships of power. Building on this, I want to next examine racialized power relations in various forms of more ethical or “alternative” travel/tourism.

I am so pleased to become a member of this Institute because I know that many of you are also grappling with these kinds of complex questions. I would love to know what you think and to hear about your interests. I believe that on-going dialogue on these matters is especially important now, as it is becoming more and more difficult to ignore our complicity in Empire.

Working at the SDB has much personal significance for me as well ... I grew up in Montreal, did my BA at Concordia, and it was SDB courses that first prompted me to think critically about social justice and to get involved in community organizing. It is wonderful to be back at this unique and influential Institute.

Although I officially begin in January (teaching the *Feminisms, Race, and Racisms* course), I will be around throughout the Fall term, getting settled in. Please drop by to say hello. I really look forward to working with all of you.

Gada

## External Evaluation of the Simone de Beauvoir Institute

As many of you are aware, the Institute was evaluated last academic year as part of the regular appraisal of academic programs for universities. The evaluators' final report is now complete. You can consult a hard copy of the report in the Institute office. The final report offers some very engaging recommendations in terms of curriculum, activities, and resources -- all in the efforts of helping us to be a unique and dynamic place for feminist scholarship in Canada. Thank you again to all those who participated in the evaluation: your comments and suggestions are most appreciated !

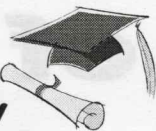

## Students:

If you haven't done so already, please make an appointment to meet with Linda for Academic Advising. It's a good idea to meet with Linda now, at the beginning of the term, to make sure that you have all your course requirements for your program. Taking a few minutes now can avoid unpleasant surprises later on – it's always better to learn sooner rather than later that you need such and such a course to graduate ! ☺
